User's Manual English Movements Caliber

BONDA normtech

- -706.1
- -706.3
- 706.B

You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda brand

In case of repairs, guarantee claims and guestions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.

- Cal. 706.3
- Pos. Position of rest (watch running)
- During the blocking period from 10.00 pm-5.00 am. Pos. I automatic changes are in progress. It is not allowed to activate the pushers A or B or C (quick-correction of date, day of the week, month) during the blocking period. Pressing the pushers during this period may cause malfunctions in the movement

Setting sequence for: moonphase display, day of the week, day and time (e.g. after a battery change)

- 1. Pull crown out to position II (watch is stopped).
- 2. Set the moonphase display:
- Turn the hands forward by turning the crown, until the full moonphase position appears.
- 3. Set the day of the week and date:
- Turn the crown until the time of 06.00 am appears (= beyond the blocked time period).
- Using the guick-change correction, set the date with pusher A, and the day of the week of the last full moon with pusher B (see table). Then using the crown, move the hands forwards until the current date appears.

	Cal. 706.1	Cal. 706.3
	Set the time: Turn the crown until the current (remember the 24-hour cycle).	time is displayed
5.	Push crown back into position I.	

Quick-change correction for date:

Press pusher A, until the current date is displayed (remember the blocking period).

Quick-change correction for the day of the week: Press pusher B, until the current day of the week is diplayed (remember the blocking period).

Quick-change correction for the month: (cal. 706.3) Press pusher C, until the current month is displayed (remember the blocking period).
